Annual Report

OF THE

SCHOOL BOARD

FOR THE

DISTRICT

OF THE

Town of Strafford,

FOR THE

Year Ending February 15th, 1900.

REPORT.

To the Citizens of Strafford:

The annual report of the condition of the public schools of Strafford for the year ending February 15, 1900, is hereby respectfully submitted:

During the year there have been two terms of ten and twelve weeks respectively.

Sixteen different teachers have been employed.

We are satisfied that the teachers have very generally tried to do their best, and for the most part satisfactory results have been obtained.

If satisfaction was not given in most of the schools, it is believed that the result must have been due to a want of coöperation on the part of parents, or to some cause other than a lack of interest on the part of teachers.

Somewhere we have seen the following, which so aptly describes our throughts at this time we present it: "As the family, so will be the school, so far as any influence is exerted. As believes the father or mother, so acts the boy or girl when they come, with the impress of home upon them, into the school room." Let us urge, then, upon the parents of our school children, the importance, the absolute necessity, of encouraging both teacher and pupils.

Do not condemn, do not even criticise, the school you have never seen.

Teach your children obedience at school, as well as at home. Let them understand that for a just reproof or chastisement at school they shall have no false sympathy. Aid your children at home. Speak of the school as a pleasant thing. Allow no trivial object to keep children from the school room. Sympathize with them in their trials and efforts for

improvement. Do this, and you will contribute to the success of the teachers, to the progress of your children, and to the permanent good of the schools in town.

DANIEL S. WOODMAN,
ELLA F. SCOTT,
HIRAM S. HILL,

School Board of Strafford.
